**Notice Concerning Revisions to the Forecasts of Investment Management Performance
 and the Estimated Distributions per Unit for the Fiscal Period
 Ending April 30, 2016 (4th period)**

Invesco Office J-REIT, Inc. (hereinafter referred to as the "Investment Corporation") announces that it has revised the forecasts of investment management performance and the estimated distributions per unit for the fiscal period ending April 30, 2016 (4th period: from November 1, 2015 to April 30, 2016) as announced in the "Summary of Financial Results (REIT) for the Fiscal Period Ended October 31, 2015" on December 15, 2015. Details are as follows.

1. Details of revisions to the forecasts of investment management performance and the estimated distributions per unit for the fiscal period ending April 30, 2016 (4th period: from November 1, 2015 to April 30, 2016)

	Operating revenues	Operating income	Ordinary income	Current net income	Distributions per unit (excluding distributions in excess of earnings)	Distributions in excess of earnings per unit
Previous Forecasts (A) (December , 2015)	¥4,150m	¥1,645m	¥1,379m	¥1,377m	¥2,540	¥—
Revised Forecasts (B)	¥4,171m	¥1,709m	¥1,448m	¥1,446m	¥2,668	¥—
Change (B-A)	¥21m	¥63m	¥69m	¥69m	¥128	¥—
Rate to Change	0.5%	3.9%	5.0%	5.0%	5.0%	—%

(Information)

The estimated number of issued investment units as of the end of the period is 542,210 and the estimated current net income per unit is ¥2,668.

Note: This press release is a document for making a public announcement concerning revisions to the forecasts of investment management performance and the estimated distributions per unit for the fiscal period ending April 30, 2016 (4th period), and has not been prepared for the purpose of soliciting investment.

(Note 1) The revised and estimated figures above are calculated as of the date hereof based on the assumptions set forth in attachment hereto, "Assumptions for the Revisions to the Forecasts of Investment Management Performance and the Estimated Distributions per Unit for the Fiscal Period Ending April 30, 2016 (4th period)" thus actual operating revenues, operating income, ordinary profit, current net income and distributions per unit (excluding distributions in excess of earnings) may differ from the estimated figures. In addition, the forecasts above do not guarantee the amount of the distributions.

(Note 2) If a deviation from the forecasts above is expected beyond a certain extent, they may be revised.

(Note 3) Figures above are rounded down, and percentages are shown rounded off to one decimal place.

2. Reasons for revisions and disclosures

The Investment Corporation has determined to revise the investment management performance and distribution forecasts, as shown in the above table, because the estimated distribution per unit for the 4th fiscal period, ending April 30, 2016 (4th period) is likely to be at least 5% different from the distribution forecasts that were announced on December 15, 2015.

The main factors for the revision are as follows: (i) revenues from the leasing business were higher than expected by approximately ¥21million as a result of the fact that new lease agreements were executed; and (ii) expenses for the leasing business, such as utility expenses, were lower than expected by approximately ¥28million.

Assumptions for the Revisions to the Forecasts of Investment Management Performance and the Estimated Distributions per Unit for the Fiscal Period Ending April 30, 2016 (4th period)

Items	Assumptions
Calculation period	➤ Fiscal Period Ending April 30, 2016 (4th period) (from November 1, 2015 to April 30, 2015) (182 days)
Assets managed	<ul style="list-style-type: none"> ➤ Based on the assumption of eight properties under management as of the date of this document. ➤ It is based on the assumption that there will be no changes in assets under management (such as the acquisition of new properties or the disposal of Owned Properties) until the end of the fiscal period ending April 30, 2016. In fact, however, there is the possibility of fluctuations depending on changes in managed assets.
Operating revenues	<ul style="list-style-type: none"> ➤ Operating revenues are based on the assumption of the total assets under management as stated above. The revenues from the leasing business are calculated based on the lease agreements in effect as of the date of this document, changes in tenants, market circumstances and any other factors. In addition, operating revenues are based on the assumption that no tenants will fail to pay or default on rents. ➤ Dividend income from the silent partnership equity interest is estimated to be ¥4 million.
Operating expenses	<ul style="list-style-type: none"> ➤ Among the expenses for the leasing business, which is a major operating expense, the expenses other than the depreciation expenses are calculated reflecting variable factors of expenses based on the past actual figures. ➤ The depreciation expenses are calculated including any incidental expenses, etc., according to the straight-line method. The estimates are ¥560million for the fiscal period ending April 30, 2016 (4th period). ➤ The estimated amount of the fixed asset tax, the city planning tax and other taxes to be recorded for the fiscal period ending April 30, 2016 (4th period) is ¥316million. Generally, in sales and purchases of real estate, etc., the fixed asset tax and the city planning tax, among others, are adjusted with the current owners by calculation on a pro-rata basis for the relevant period upon the acquisition of the relevant real estate, etc. However, the Investment Corporation will not record the relevant adjusted amounts for the fixed asset tax, the city planning tax and other taxes under the expenses for the fiscal period during which the acquisition occurs because the said adjusted amounts will be included in the acquisition cost. Accordingly, in terms of Tokyo Nissan Nishi-Gotanda Building, ORTO Yokohama and Nishi-Shinjuku KF Building acquired in the fiscal period ending October 31, 2015 (3rd period) (hereinafter referred to as the "Assets Acquired in the 3rd fiscal period"), the fixed asset tax, the city planning tax and other taxes imposed for the fiscal year 2015 will not be recorded as expenses for the fiscal period ending April 30, 2016. and the fixed asset tax, the city planning tax and other taxes imposed for the fiscal year 2016 will be partially recorded under expenses from the fiscal period ended April 30, 2016 (4th period), and will be fully recorded from the fiscal period ending October 31, 2016 (5th period). The estimated amount of the fixed asset tax, the city planning tax and other taxes to be recorded for the fiscal period ended April 30, 2016 (4th period) is ¥20million. (If the fixed asset tax, the city planning tax and other taxes are recorded as expenses on a full-year basis, the estimated amount is ¥88 million, creating a difference of ¥67million. The figure divided by the number of investment units issued as of March 31, 2016 (542,210 units) is

Note: This press release is a document for making a public announcement concerning revisions to the forecasts of investment management performance and the estimated distributions per unit for the fiscal period ending April 30, 2016 (4th period), and has not been prepared for the purpose of soliciting investment.

	<p>approximately ¥124.)</p> <ul style="list-style-type: none"> ➤ In terms of repair costs, the asset management company (Invesco Global Real Estate Asia Pacific, Inc.) records the estimated cost amounts for each property and each operation period as expenses. However, an increase in repair costs or additional repair costs may arise due to unpredictable causes, and thus the actual costs may differ substantially from the estimated costs.
Non-operating expenses	<ul style="list-style-type: none"> ➤ The estimated interest expenses and other loan-related costs are expected to be ¥256million for the fiscal period ending April 30, 2016 (4th period).
Loans	<ul style="list-style-type: none"> ➤ The Investment Corporation has a balance of borrowings amounting to ¥56,200 million as of today. The loan balance is based on the assumption that the amount will not change until the end of the fiscal period ending April 30, 2016. ➤ Based on the assumption above, the LTV ratio is estimated at approximately 47.7% as of the end of the fiscal period ending April 30, 2016. ➤ The LTV ratio is calculated according to the following formula: LTV = total amount of interest-bearing debt / total amount of assets*
Investment units	<ul style="list-style-type: none"> ➤ It is assumed that the total number of Investment Units of 542,210 will not change due to the issue of new Investment Units or any other reason until the end of the fiscal period ending April 30, 2016.
Distributions per unit (excluding distributions in excess of earnings)	<ul style="list-style-type: none"> ➤ The distributions per unit (exclusive of distributions from other sources) are estimated based on the distribution policy provided under the rules of the Investment Corporation. ➤ The distributions per unit may change due to various reasons, including a change in rent revenues arising from changes in managed assets, tenants or unexpected repairs.
Distributions in excess of earnings per unit	<ul style="list-style-type: none"> ➤ Currently, distributions arising from sources other than profits are not scheduled.
Other	<ul style="list-style-type: none"> ➤ It is assumed that there will be no revisions to laws, regulations, the tax code, accounting standards, listing rules, rules of the Investment Trusts Association, Japan, or any other institution that will affect the estimated figures described above. ➤ It is assumed that there will be no unexpected material changes in general economic trends, real estate market circumstances, etc.

Note: This press release is a document for making a public announcement concerning revisions to the forecasts of investment management performance and the estimated distributions per unit for the fiscal period ending April 30, 2016 (4th period), and has not been prepared for the purpose of soliciting investment.
